23. MISCELLANEOUS LICENSING SUB-COMMITTEE WORK IN 2020/21

The Sub-Committee received and considered the report of the Group Manager of Residential Services which updated Members on the licensing work plan for 2020/21.

The report advised that a number of policy reviews would be taking place in 2020 including the Hackney Carriage and Private Hire Licensing Policy, Street Trading Policy and the three year statutory review of the Statement of Licensing Policy.

In 2017, the government had set up a Task and Finish Group to look at Taxi and Private Hire Legislation. The group had met and produced a report of recommendations which was attached as Appendix A to the report.

Another piece of work to be undertaken was researching the requirements of CCTV in licensed vehicles and the Licensing Service Leader would be working closely with the Chairman on this matter.

Members discussed how CCTV footage had the potential to protect the driver and the passenger, the hard drive would remain in the car and the Data Controller would be WODC. Discussions were ongoing as to retention timeframes, how the data would be stored and who would have access to it.

With regards to the introduction of more electric vehicles, it was noted that the County's aspirations were that all taxis would be 'clean' by 2025. However, the location of the charging points was still up for consideration. Following a question from Councillor Good, Mrs Bignell advised that drivers would be consulted to obtain information on the cars currently being used in the District. Technology of hybrid and electric vehicles was changing all the time and officers were liaising with the Climate Action Manager to discuss potential ways forward.

It was noted that it would be difficult to enforce a blanket change to all licensed vehicles in the District and a stepped approach may be more achievable. The potential of a reduced licence fee for the first drivers or operators to move to 'clean' vehicles was suggested.

Officers also advised that a five year review was due on the Street Trading Policy and any changes to policy would be consulted on in the first instance.

With regards the Statement of Licensing Policy, officers explained that updates were needed following amendments to the Immigration Act.

The Chairman thanked Mrs Bignell and the licensing team for their work and for continuing to be pro-active, building good relationships with the Police and PubWatch.

Following a number of issues raised by Members regarding some drivers refusing fares or overcharging, Mrs Bignell requested that the information be forwarded to her directly, so that any investigations, if necessary, could be undertaken.

The Sub-Committee also debated the suitability of publishing a price list at taxi ranks, to enable the public to understand how much they should expect to pay for journeys. It was noted that fare information should already be on display inside the vehicle. Officers highlighted that any signage erected on the highway would need the consent of the landowner and a lot of information was available on the Council's website and social media platforms. Having considered the report, Members

RESOLVED: That the report be noted.

The meeting closed at 10.52 am
